This is one of the filthiest localities in the town, it is a wonder why Cholera did not generate here and how it was allowed to be in this State, is not known, although it is in the heart of the Town and near to the quarters of the Assistant, the smell is of a very disagreeable nature, as the greater part of the filth of the street and of the Merchant's houses passes through the road and there into the drainage below, and the stench when passing in this lane is unbearable.
